Regarding Competitively Priced statement: Comparison against funds in its Morningstar peer category as of March 31, 2024.

Performance data shown represents past performance and is no guarantee of future results. Current performance may be higher or lower than the performance shown. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. To obtain the most recent month-end performance data, visit www.dimensionalfund.com. Performance includes reinvestment of dividends and other earnings. Returns for periods shorter than one year are not annualized. For ETFs, the market price return is calculated from closing prices as determined by the fund's listing exchange.

The Portfolio's principal risks include: equity market risk, small and mid-cap company risk, profitability investment risk, value investment risk, market trading risk, premium/discount risk, derivatives risk, securities lending risk, operational risk, cyber security risk, and large shareholder risk. For more information regarding the Portfolio's principal risks, please see the prospectus.

DISCLOSURES
Profitability is measured as operating income before depreciation and amortization minus interest expense, scaled by book.
Sectors are classified according to GICS sector. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global. Holdings are subject to change. Numbers may not total 100% due to rounding.
The Russell 3000 Index measures the performance of the 3,000 largest publicly traded US companies based on total market capitalization. Frank Russell Company is the source and owner of the trademarks, service marks and copyrights related to the Russell Indexes. Indices are not available for direct investment.
ETFs trade like stocks, fluctuate in market value and may trade either at a premium or discount to their net asset value. ETF shares trade at market price and are not individually redeemable with the issuing fund, other than in large share amounts called creation units. ETFs are subject to risk similar to those of stocks, including those regarding short-selling and margin account maintenance. Brokerage commissions and expenses will reduce returns.
