DISCLOSURES

Certain Portfolios have entered into fee waiver and/or expense assumption arrangements with the Advisor. In these cases, the Advisor has contractually agreed, under certain circumstances, to waive certain fees and/or assume certain expenses of the Portfolio. Unless otherwise stated in the prospectus, the Advisor may amend or discontinue these arrangements at any time, one year from the date of the prospectus. The net expense ratio reflects the total annual fund operating expenses of the Portfolio after taking into account any such fee waiver and/or expense assumption arrangements. Please read the Portfolio's prospectus for details and more information.

Regarding Competitively Priced statement: Comparison against funds in its Morningstar peer category as of March 31, 2024.

Performance data shown represents past performance and is no guarantee of future results. Current performance may be higher or lower than the performance shown. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. To obtain the most recent month-end performance data, visit www.dimensionalfund.com. Performance includes reinvestment of dividends and other earnings. Returns for periods shorter than one year are not annualized. For ETFs, the market price return is calculated from closing prices as determined by the fund's listing exchange.

After-tax returns are calculated using the highest individual federal income tax rate in effect and they do not reflect state and local taxes. After-tax returns depend on an investor's particular tax situation and may differ from those shown here.

Prior to listing date, the ETF operated as a mutual fund. The NAVs of the predecessor mutual fund are used for both NAV and market price performance from inception to listing. For ETFs, the market price return is calculated from closing prices as determined by the fund's listing exchange. If you trade your shares at another time, your return may differ.

PRINCIPAL RISKS

Because the value of your investment in the Portfolio will fluctuate, there is the risk that you will lose money. An investment in the Portfolio is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Portfolio's principal risks include: equity market risk, small and mid-cap company risk, profitability investment risk, value investment risk, tax-management strategy risk, market trading risk, premium/discount risk, derivatives risk, securities lending risk, operational risk, and cyber security risk. For more information regarding the Portfolio's principal risks, please see the prospectus.

DISCLOSURES

Profitability is measured as operating income before depreciation and amortization minus interest expense, scaled by book.

Sectors are classified according to GICS sector. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global. Holdings are subject to change. Numbers may not total 100% due to rounding.

The Russell 3000 Value Index measures the performance of Russell 3000 companies with lower price-to-book ratios and lower forecasted growth values. Frank Russell Company is the source and owner of the trademarks, service marks and copyrights related to the Russell Indexes. Indices are not available for direct investment.

ETFs trade like stocks, fluctuate in market value and may trade either at a premium or discount to their net asset value. ETF shares trade at market price and are not individually redeemable with the issuing fund, other than in large share amounts called creation units. ETFs are subject to risk similar to those of stocks, including those regarding short-selling and margin account maintenance. Brokerage commissions and expenses will reduce returns.
