## PRINCIPAL RISKS

This Portfolio is a fund of funds and is subject to the risks of the underlying funds in which it invests. Risks include loss of principal and fluctuating value. Small cap securities are subject to greater volatility than those in other asset categories. Value investing is subject to risk which may cause underperformance compared to other equity investment strategies. International investing involves special risks such as currency fluctuation and political instability. Investing in emerging markets may accentuate these risks. Fixed income securities are subject to increased loss of principal during periods of rising interest rates and may be subject to various other risks including changes in credit quality, liquidity, prepayments, and other factors. For more detail regarding the risks affecting this Portfolio, please see the Principal Risks section of the prospectus.

## ANNUALIZED PERFORMANCE (%)

Performance for the portfolio is reported net of all advisory fees and includes reinvestment of dividends and other earnings. Performance less than one year is not annualized. Performance data shown represents past performance and is no guarantee of future results. Current performance may be higher or lower than the performance shown. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.
