INVESTMENT OBJECTIVE

The investment objective of the World ex U.S. Targeted Value Portfolio is to achieve long-term capital appreciation.

PRINCIPAL RISKS

Risks include loss of principal and fluctuating value. Small cap securities are subject to greater volatility than those in other asset categories. Value investing is subject to risk which may cause underperformance compared to other equity investment strategies. International investing involves special risks such as currency fluctuation and political instability. Investing in emerging markets may accentuate these risks. Sector-specific investments can also increase these risks. Tax-managed strategies may perform differently from non-tax-managed strategies. For more detail regarding the risks affecting this Portfolio, please see the Principal Risks section of the prospectus.
