INVESTMENT OBJECTIVE

The investment objective of the DFA One-Year Fixed Income Portfolio is to achieve a stable real return in excess of the rate of inflation with a minimum of risk.

PRINCIPAL RISKS

Risks include loss of principal and fluctuating value. Fixed income securities are subject to increased loss of principal during periods of rising interest rates and may be subject to various other risks including changes in credit quality, liquidity, prepayments, and other factors. International investing involves special risks such as currency fluctuation and political instability. Sector-specific investments can increase these risks. For more detail regarding the risks affecting this Portfolio, please see the Principal Risks section of the prospectus.
